§ 3832.11 How do I locate mining claims or sites?

(a) You must follow both state and Federal law.

(b) Your lode or placer claim is not valid until you make a discovery within the boundaries of the claim.

(c) To locate a claim or site, you must—

(1) Make certain that the land on which you are locating the claim or site is Federal land that is open to mineral entry

(2) Stake and monument the corners of a mining claim or site which meets applicable state monumenting requirements and the size limitations described in § 3832.22 for lode and placer claims, § 3832.32 for mill sites, and § 3832.42 for tunnel sites;

To obtain the land description, you must use an official survey plat or other U.S. Government map that is based on the surveyed or protracted U.S. Public Land Survey System. If you cannot describe the land by aliquot part (e.g., the land is unsurveyed), you must provide a metes and bounds description that fixes the position of the claim corners with respect to a specified claim corner, discovery monument, or official survey monument. In all cases, your description of the land must be as compact and regular in form as reasonably possible and should conform to the U.S. Public Land Survey System and its

rectangular subdivisions as much as possible; and

(2)(i) You must file either—

(A) A topographical map published by the U.S. Geological Survey with a depiction of the claim or site; or

(B) A narrative or sketch describing the claim or site and tying the description to a natural object, permanent monument or topographic, hydrographic, or man-made feature.

(ii) You must show on a map or sketch the boundaries and position of the individual claim or site by aliquot part within the quarter section accurately enough for BLM to identify the mining claims or sites on the ground.

(iii) You may show more than one claim or site on a single map or describe more than one claim or site in a single sketch—

(A) If they are located in the same general area; and

(B) If the individual mining claims or sites are clearly identified.

(iv) You are not required to employ a professional surveyor or engineer to establish the location's position on the ground.

(b) *Lode claims.* You must describe lode claims by metes and bounds beginning at the discovery point on the claim and include a tie to natural objects or permanent monuments including:

(1) Township and section survey monuments;

(2) Official U.S. mineral survey monuments;
